# Pirate Crab Attack!

Help Rockhopper save Club Penguin by solving these puzzles!

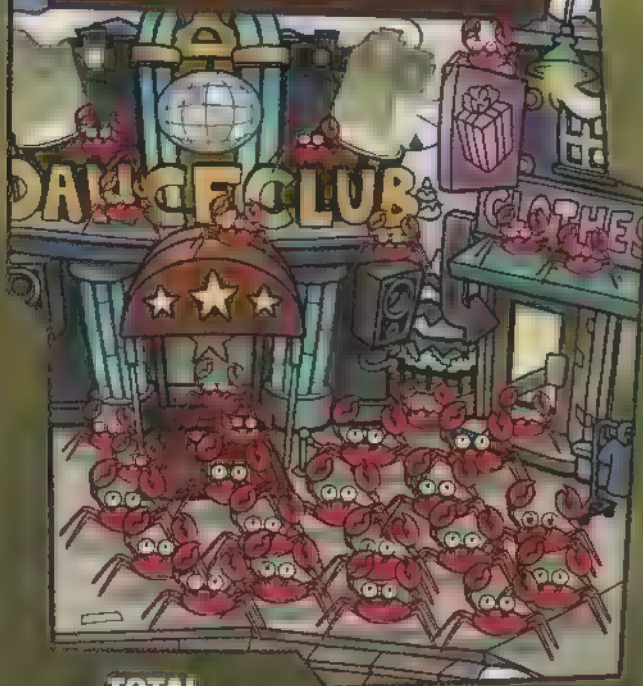

## CHALLENGE 1

Quick! Help Rockhopper find his key, his hat and five stinky cheese bombs!

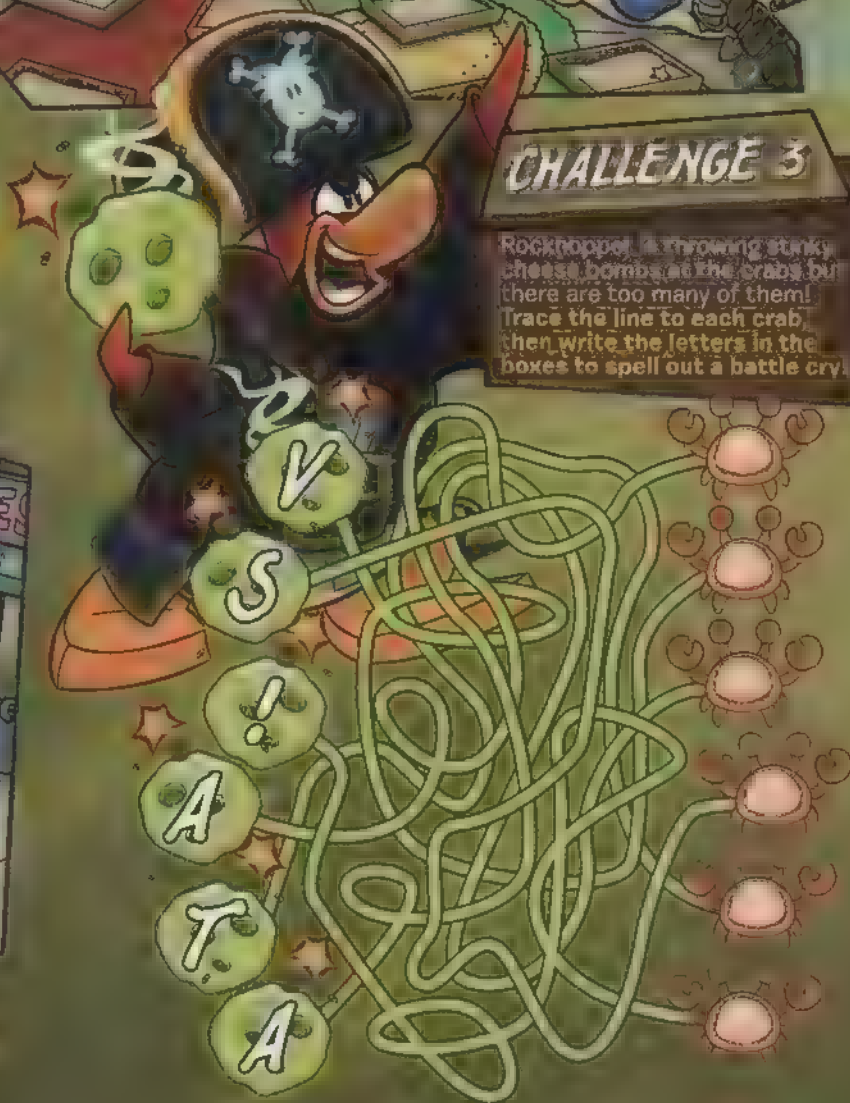

## CHALLENGE 2

There's an army of pirate crabs in the town. How many can you count?

## CHALLENGE 3

Rockhopper is throwing stinky cheese bombs at the crabs but there are too many of them! Trace the line to each crab, then write the letters in the boxes to spell out a battle cry.

TOTAL

Bonus: ...

# CHALLENGE 4

Rockhopper has asked Gary to find a formula to defeat the crabs!

The formula is in a tall bottle. It is not red. It doesn't have a crab on it. It does have a cork.

# CHALLENGE 5

The formula is working and the crabs are leaving! Run through the maze and chase away every last crab. Don't go over the same path twice!

# CHALLENGE 6

You did it and now this crab feels it!

How many crabs can you find hiding in this scene?

GET 500 COINS!

Write down the colour of the correct bottle from challenge 4, followed by the number of crabs in challenge 5?

# MINI GAME MASTERCLASS

# Card Jitsu Snow

Still stuck in the snow?  
Wanna trash Tusk once and  
for all? We show you how!

## FIRE NINJAS

should stay a few squares back from the Snow Minions to attack from a distance.

## SNOW NINJAS

should try to stay far back from the Snow Minions and heal their teammates.

## WATER NINJAS

should move in right next to the Snow Minions to do maximum damage.

Playing **Power Cards** at the same time as the other ninjas will do more damage, and create a combo effect.

## Villain Guide

### Tank

This brute can only move one tile per turn, but he has the highest damage of all the Snow Minions.  
**Tip:** He cannot attack diagonally, so use this to your advantage.

### Sly

Get up close to this Minion and his attacks will do less damage.  
**Tip:** The Water Ninja deals more damage to Sly than to the other Snow Minions.

### Scrap

This Snow Minion always attacks the ninja closest to him.  
**Tip:** Try to stay away from Scrap's range of 3 tiles. And spread out, because his attacks affect a 3 x 3 box around his target!

### Tusk

Try to stand two spaces above or below Tusk to avoid his icicles attack. Sensei will help with a Power Card every three turns, in this order: Fire, Water, Snow.

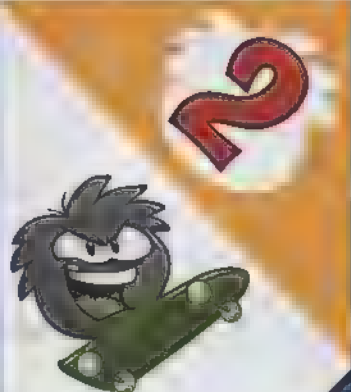

# Puffle Predictor!

# CRAZY QUICKSAND!

## YOU WILL NEED:

1. Cup of cornflour
2. Plastic tub
3. Spoon
4. Water

Agent G shows you how to make realistic quicksand in this fun and simple experiment.

### Step 1

Put a cup of cornflour in a plastic tub. Add a little water and stir it with a spoon.

### Step 2

Stir the mixture quickly with a spoon. It will become thick.

### Step 3

Stir the mixture slowly with a spoon. It will become soft.

It might get messy so why not do this experiment outside?

**GARY'S SCIENCE BIT:** If you add just the right amount of water the mixture becomes thick when you stir it quickly because the cornflour grains can't slide over each other. If you stir it slowly, more water gets in between the grains letting them slide over each other and the quicksand becomes soft. This is a lot like how real quicksand works.
